GitHub: github.com/areejirshad

Availability: Remote, full-time, part-time, freelance/contract

Developer and designer building production websites and full-stack apps for education, business, ecommerce, SaaS, dashboards and custom ideas. Strong WordPress expertise with real MERN/Next.js LMS platforms, payments, role dashboards, APIs, databases, UI/UX, deployment and maintenance.

CORE SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, Tailwind, responsive UI, animations.

WordPress: Elementor, WPBakery, Tutor LMS, custom CSS, PHP/JS, forms, business sites.

Backend: Node.js, Express, REST APIs, auth, roles, admin workflows, email logic.

Payments: Stripe, PayPal, bank/manual review, coupons, pricing, subscriptions.

Databases: MySQL, MongoDB, Prisma, relational schemas, orders, reports, exports.

Design/Launch: UI/UX, branding, banners, content flow, deployment, hosting, maintenance.

FLAGSHIP FULL-STACK PROJECTS

Gen-Mumins Learning Platform

Next.js | React | MySQL | LMS | Payments

- Built a revenue-generating online institute platform with public website, registration, parent/student/teacher/admin dashboards, curriculum, live sessions, recordings, feedback, reporting and operations.
- Implemented parent accounts, multi-child profiles, bundle pricing, coupons, regional/manual flows, Stripe/PayPal payments, enrollment access, Zoom sessions, Drive recordings, exports and admin controls.

Live: <https://genmumin.com/>

TGA Awakening Platform

Next.js | TypeScript | Prisma | Stripe/PayPal

- Developed a full-stack Islamic education platform with animated public pages, Seerah registration, payments, student dashboard, scholarships/fee waivers, donations and admin dashboard.
- Owned UI/UX, frontend, backend APIs, database schema, coupons, monthly/full plans, manual review, email notifications, admin order/student/payment workflows and deployment setup.
